

**KAMA**®

**KOREAN AMERICAN  
MEDICAL ASSOCIATION**  
KOREAN AMERICAN MEDICAL FOUNDATION

Dear Trainees,

On behalf of the Korean American Medical Association (KAMA), we would like to extend a warm welcome and share our deep commitment to your growth as future leaders in medicine and research.

One of KAMA's core missions is to promote trainee research and support career development. We believe that fostering academic curiosity and scientific excellence early in your training is essential to advancing both our community and the broader field of medicine. As part of this mission, we are excited to announce the Trainee Research Abstract Competition at our upcoming 50th KAMA Scientific Convention.

This is a wonderful opportunity for students, residents, and fellows to present original research, connect with mentors, and gain recognition for their work. We strongly encourage you to submit your abstracts and take advantage of this platform to share your contributions with peers and leaders in the field.

You can find full submission details and eligibility criteria at the following link:  
<https://www.kamaus.org/convention/abstracts.html#section-abstract>

We are here to support you every step of the way and look forward to seeing your innovative work at the convention.

With best wishes for your continued success,

Anthony Choi + Eugene Choo  
Co-Research Chairs  
Korean American Medical Association (KAMA)
